

FullMetalUpdate

Your fully integrated solution for OTA
update

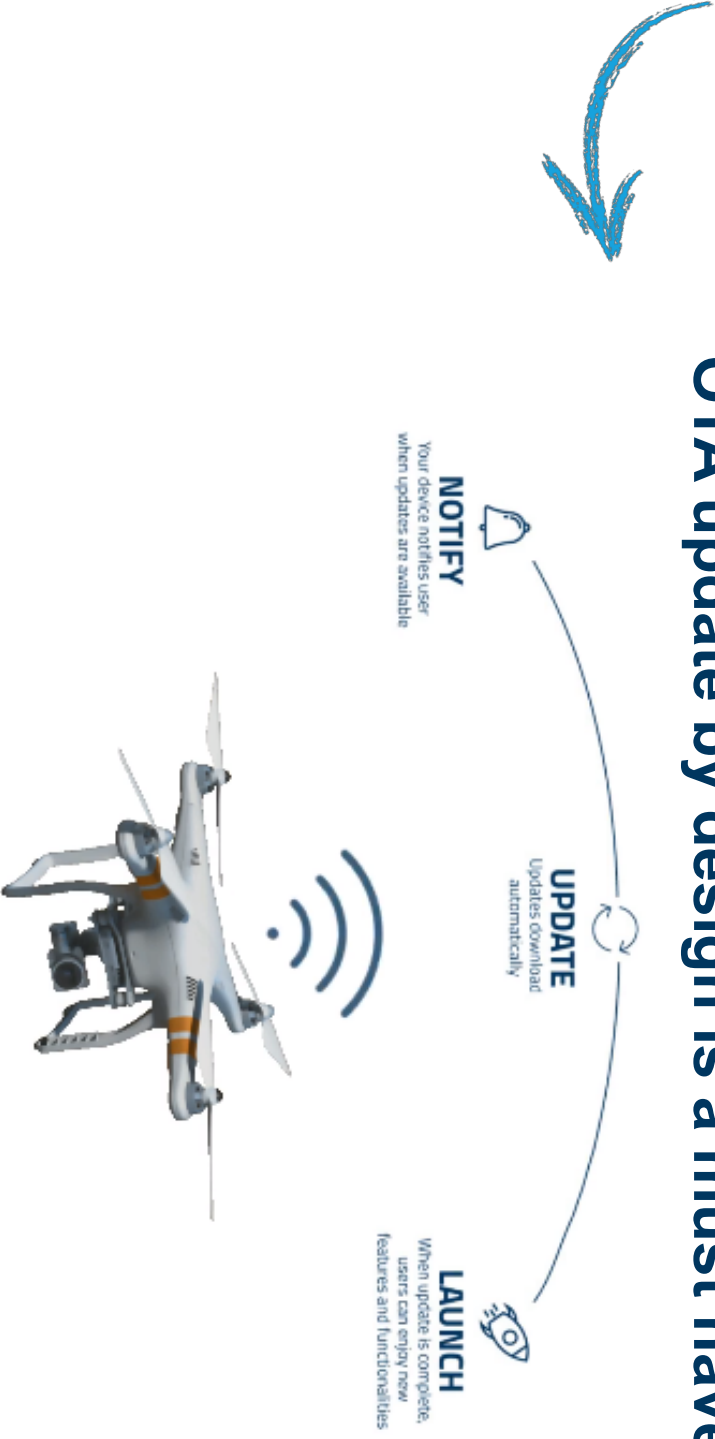

Witekio

Protect your device from latest security hacks?

Enchant users over time with new features?

Deploy bug fixes?

OTA update by design is a must have!

FullMetalUpdate

Your fully integrated solution for OTA update

Full open source, for your peace of mind

⚡ RESOURCE SAVING

↪ **PLUG AND PLAY**, you save money and time for the rest of your projects

⚡ TRANSPARENCY

↪ **NO BLACK BOX OR LOCK-IN**, rely on widespread proven effective technologies

⚡ FREEDOM

↪ **FULL AUTONOMY OR SUPPORT** you choose depending on your system needs

⚡ SCALABILITY

↪ **OPEN SOURCE BRICKS** constantly optimizes over time with contributions

Simple and robust solution on the shelf

Open source

No Lock-in, proven effective software bricks

Container based

Continuous integration, security and versatility

Cloud agnostic

Deploy either on your premises or on any cloud

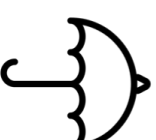

Delta updates

Only updates differences between two deliveries

Forget downtime

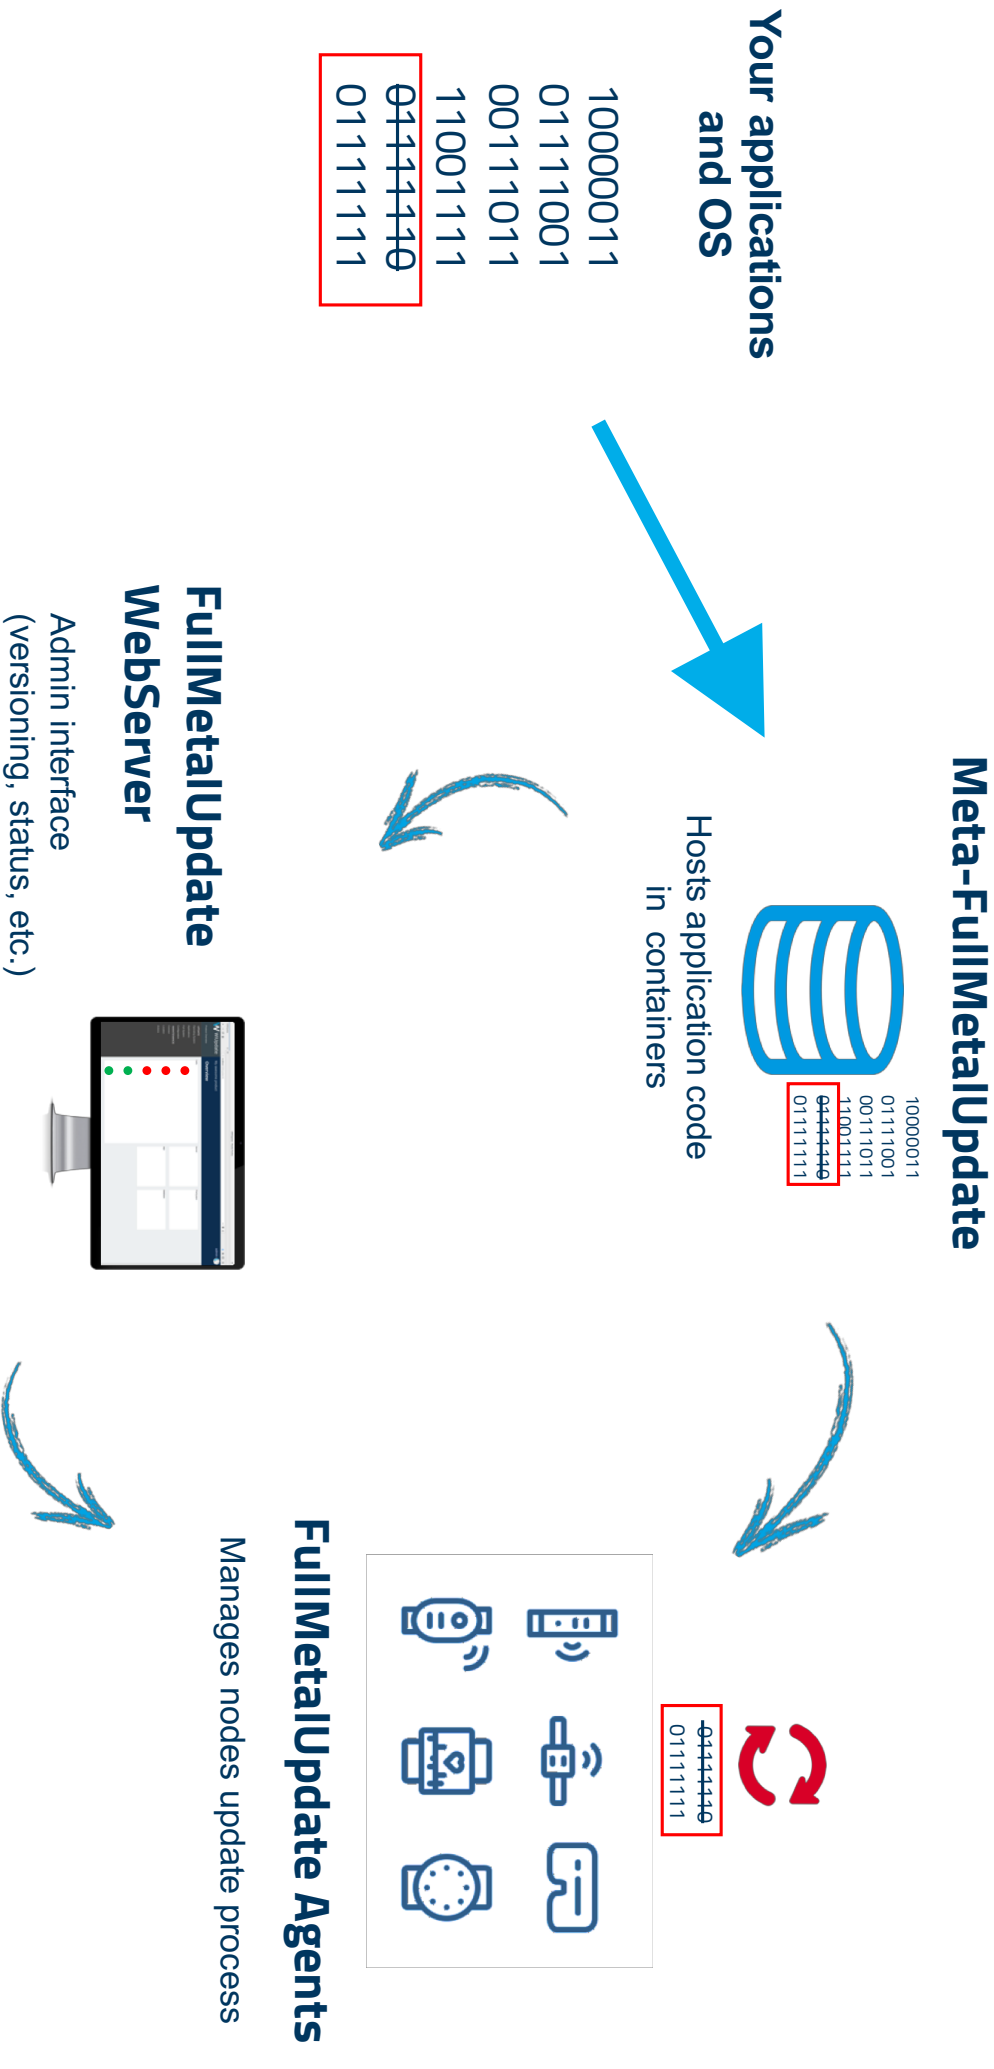

Only wait for your applications to restart, everything else is done in the background.

Unbrickable

Whatever happens during an update, your device will always boot and run your applications.

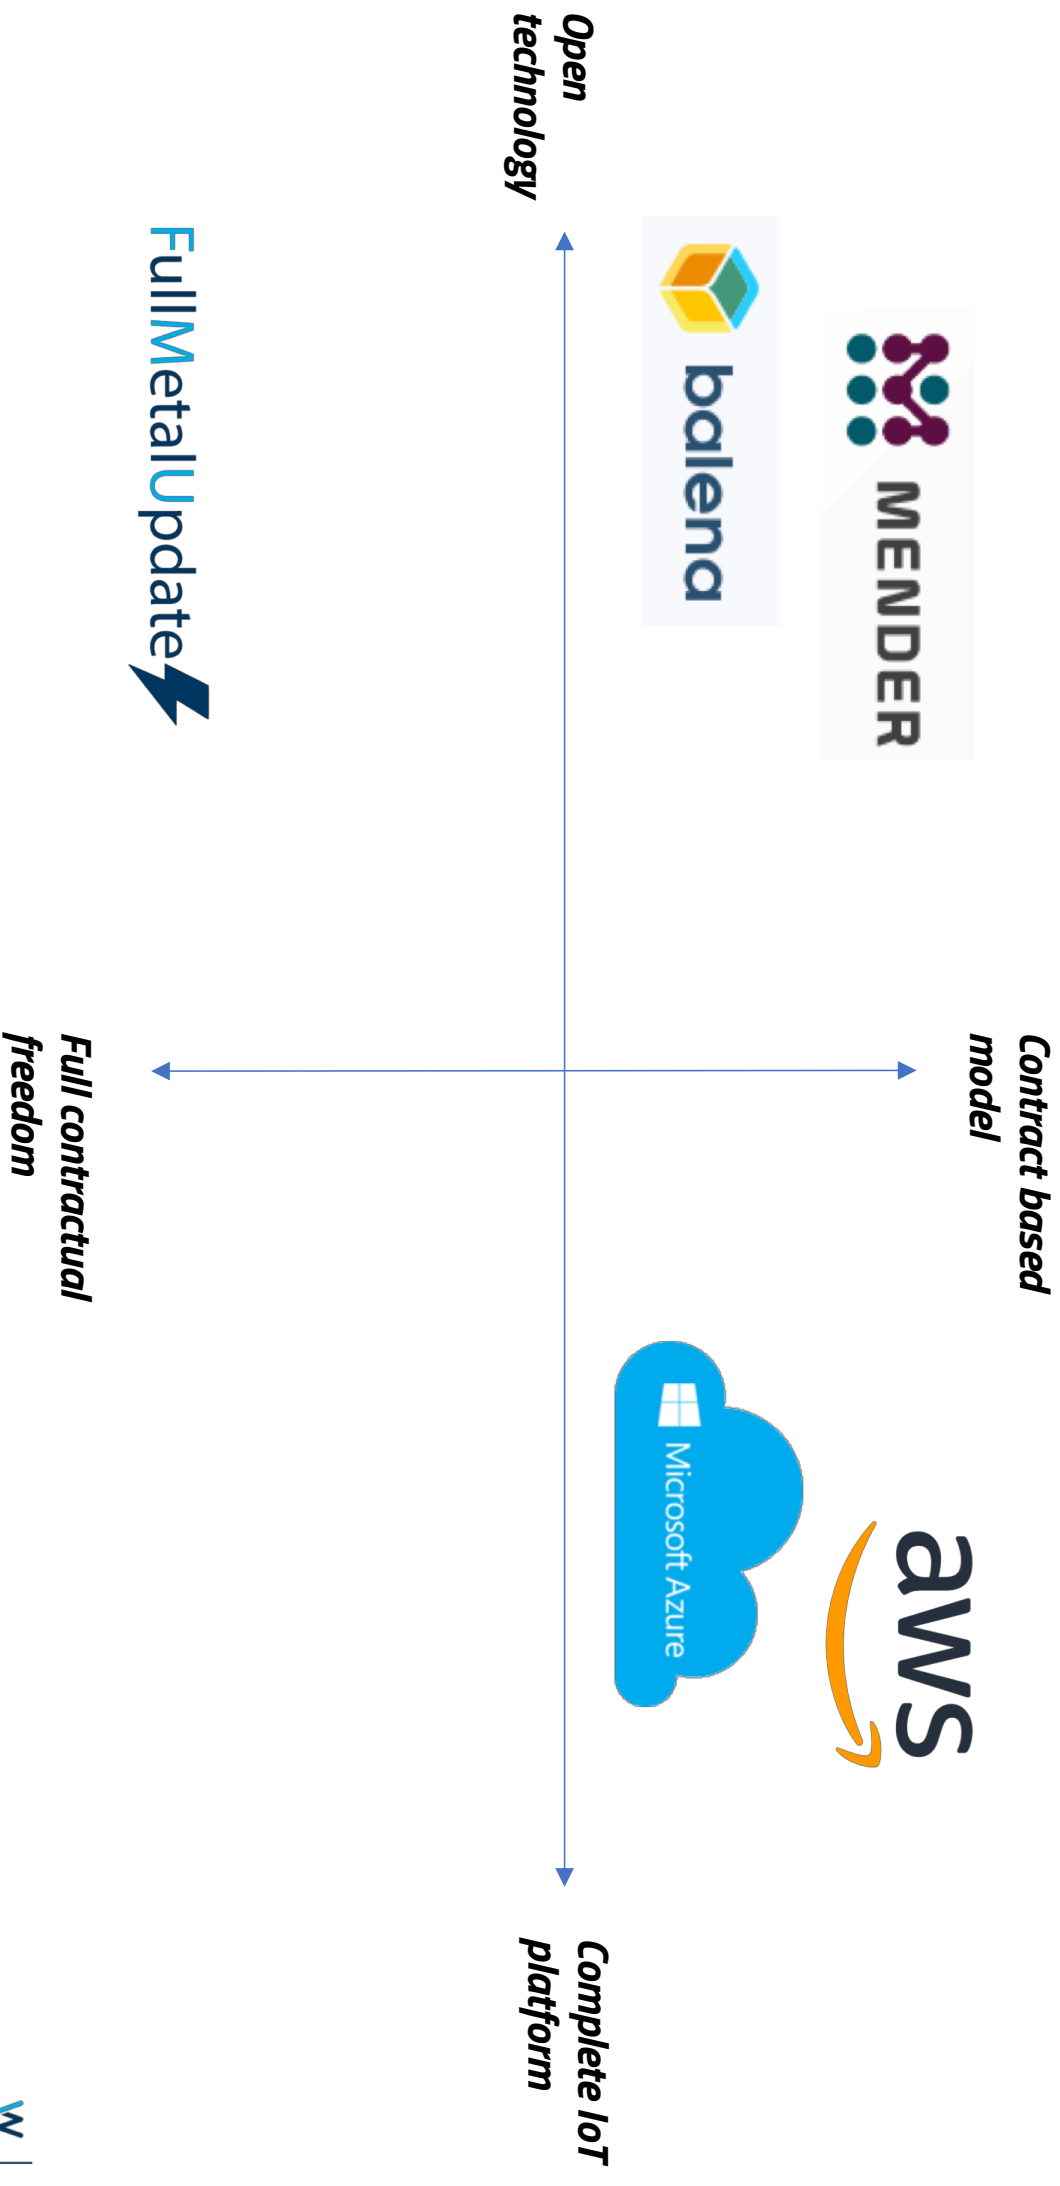

See how it works

The most competitive stand-alone solution
