RIGGING

To be able to suspend the lighting, sound, screens and some of the set, we will construct a concealed truss around half of the room. This needs to be a heavy duty truss due to the span and built using certain equipment due to the time constraints. This includes all certification and labour to install and remove.

RIGGING

To be able to suspend the lighting, sound, screens and some of the set, we will construct a concealed truss around half of the room. This needs to be a heavy duty truss due to the span and built using certain equipment due to the time constraints. This includes all certification and labour to install and remove.
